Danish Seed Import
CHRIS MOSBERG
206 Seventh Street North
Office: Geneva 3401
MINNEAPOLIS, MINN.

Residence: Geneva 7477
In sending out this our seventh annual Seed List, we wish to thank all our customers for the patronage given us during the past years, and hope all of you will continue to send your order this way, and tell your friends about us, too. We are trying to have only the very best obtainable in seeds, and are importing most part from Denmark. Where the American seeds are better than foreign, we have the American grown, but a good many kinds are grown more successfully in the northern climate of Denmark.

Assuring any order you may send us our very best attention, we are,

Respectfully yours,

DANISH SEED IMPORT,
Chris Mosberg.

Minneapolis, Minn., January, 1921.

---

**TERMS**

All prices subject to change and to being unsold.

5% cash discount allowed if money accompanies order.

Delivery charges will be paid by us for all seeds except peas, beans, sweet corn, field seeds and bulbs.

All seeds are tested for germination, and those tests are at your service, if desired.

We use every care in having all seeds pure and reliable, but will not in any way be responsible for quality, description or the crop.

Chris Mosberg.

Pkt. 5c; oz. 10c; \[\frac{1}{4}\] lb. 30c; lb. $1.00.

The varieties marked * are imported from Denmark.
BEETS—Cont.

Early Wonder. A new very early Beet; turnip shaped, and very dark inside and outside; only good for early use.
$\frac{1}{4}$ lb. 50c; lb. $1.50.$

Early Blood Turnip. Fine turnip shaped Beet, with deep red flesh, regular growth.
$\frac{1}{4}$ lb. 25c; lb. 80c.

Beet Seed for Beet Greens. There seems to be a demand for cheaper beet seeds for growing beet green, and we have therefore procured some seeds of a round dark red beet with a large tender top and offer that seed at 50c per lb.

Danish Taaroje, ovoid-shaped reddish yellow, preferable to the former for heavy soil, has been awarded First Class Certificate by the Danish Government.
$\frac{1}{4}$ lb. 15c; lb. 50c.

*Danish Eckendorf Giant Yellow, very big roots.
$\frac{1}{4}$ lb. 15c; lb. 50c.

*Danish Eckendorf Giant Red.
$\frac{1}{4}$ lb. 15c; lb. 50c.

*Mammoth Long Red.
$\frac{1}{4}$ lb. 15c; lb. 50c.

*Danish Giant Half Sugar Beet, rose-colored top.
$\frac{1}{4}$ lb. 20c; lb. 60c.

*Danish Golden Tankard, golden yellow.
$\frac{1}{4}$ lb. 15c; lb. 50c.

Sugar Beet Klein Wanzlebener. White roots, not as large as Mangel Beets, but contains much more sugar, can be used for feed or for sugar.
$\frac{1}{4}$ lb. 20c; lb. 60c.

Varieties marked * are imported from Denmark.
CABBAGE

(Danish grown seeds).

*Early May. Will produce heads earlier than any other cabbage. The heads are conical and small, but have a fine flavor. Can be planted close together.
    Pkt. 10c; oz. 35c; ¼ lb. $1.25.

St. Johns Day. Very early round cabbage. Heads do not get so hard as the Copenhagen Market, but is earlier.
    Pkt. 10c; oz. 50c; ¼ lb. $1.50.

*Early Jersey Wakefield. Very popular pointed Cabbage of high quality and medium size, uniformly hard and solid green heads. Extra strain, very early.
    Pkt. 10c; oz. 30c; ¼ lb. $1.00; lb. $3.50.

*Early Winningstadt. Early variety of excellent quality, good to succeed the Jersey Wakefield; the heads are pointed, solid and dark green.
    Pkt. 5c; oz. 25c; ¼ lb. 80c; lb. $3.00.

*Danish Summer Ballhead. This excellent strain is one of the finest and is the earliest round-headed Cabbages offered today, the heads are very hard and solid and the ribs very fine in the leaves. Some Market Gardeners has been cutting heads of this kind before Copenhagen Market was ready. Fig. 3.
    Pkt. 10c; oz. 35c; ¼ lb. $1.25; lb. $4.00

*Copenhagen Market. Extra early Cabbage, heads are solid, hard and finely grained. Much like the Danish Summer Ballhead, very popular among Market Gardeners. Extra strain. Fig. 10.

AT LAST! A REAL ROOT MAGGOT REMEDY

MAG-O-TITE

TRADE MARK REGISTERED

INSURES A GOOD CROP OF—

Radishes Kale Cabbage
Onions Turnips
Cauliflower Etc.

You can now sow any of these crops and be certain of protection against the destructive Root Maggot, Earth Worm and other pests.

ERADICATES EARTH WORMS FROM LAWNS AND PUTTING GREENS

DANISH SEED IMPORT

CHR. MOSBJERG
MINNEAPOLIS MNN.
HAVE THE MAGGOTS BEEN GETTING FAT ON YOUR VEGETABLES?

Every Gardener knows that it is practically impossible to grow Radishes, Kale, Cabbage, Onions, Turnips, or Cauliflower under ordinary conditions, and that the few remedies that have been tried in the past are either unreliable, or too troublesome and expensive to be used by the average Gardener. As a result in many sections of the country they have almost given up trying to grow these vegetables, knowing only too well that Maggots and other pests would eat half the crop and spoil the other half.

But “MAG-O-TITE” has changed all this. It is a remedy that has absolutely proven all we claim for it and so wonderful are the results obtained by its use that the Manufacturers are finding it a big problem to keep up with the demand. Read what other users say about it and then try it on your own crops. You’ll get the best results ever.
**HOW "MAG-O-TITE" ACTS**

"Mag-O-Tite" acts as a perventive by repelling the Fly which lays the eggs from which the Maggots are hatched and it also destroys Maggots which are already in the soil. While intended primarily as a remedy for Root Maggots, it has proved very effective in combating Earth Worms of all kinds, the Strawberry Crown Borer, Cabbage Worms, Asparagus Miner, Flea Beetles, Cut Worms and all kinds of Slugs.

It is also invaluable for the eradication of Earth Worms from Lawns, Putting Greens and other fine turfs.

**HOW "MAG-O-TITE" IS APPLIED**

The ease with which it is applied is just one more attractive point about "MAG-O-TITE." It is simply sprinkled in and over the Drills when seeding, and around the roots when planting, and after the plants are through it is sprinkled around and alongside of them.

For the eradication of Earth Worms of all kinds sprinkle freely on the ground and then sprinkle lightly with water.

*It is not injurious to Plant Life in any way, but on the contrary is a valuable stimulant and Fertilizer.*

LISTEN TO THE MAN WHO HAS USED "MAG-O-TITE"

After using "Mag-O-Tite" I raised three acres of the finest Poultry Kale and Radishes you ever saw.

In a last attempt to raise Onions, Turnips and Radishes I bought a bag of Mag-O-Tite and it resulted in the best garden I have ever grown.

I have found Mag-O-Tite to be just what I wanted. It has put an end to every insect I have tried it on.

On the first trial of Mag-O-Tite we have had splendid results with Cabbage and Cauliflower and our Radishes are fine big red ones.

My Aster Plants were already krinkling up with bugs when I took home a package of Mag-O-Tite in desperation. The results were simply marvelous, every plant was saved.

It is a sure remedy for Root Maggots and has eliminated the Strawberry Crown Borer wherever I have used it.
